

OPEN COUNTRY[®] A/T^{III} EV

ALL-TERRAIN MEETS EV INNOVATION

Developed to be an off-road and all-weather upgrade designed specifically for EV trucks and SUVs. Multiple technologies have been applied, including an innovative AeroWing™ sidewall lug design, advanced tread compound, and optimized tread pattern to address the unique vehicle requirements, such as instant torque, rapid acceleration, the additional weight, and range efficiency.

ALL-WEATHER TREAD DESIGN

- >> This all-terrain tire not only delivers dependable traction in wet and dry conditions.
- >> The 3-peak mountain snowflake on the sidewall indicates that it exceeds the snow tire performance standards set by Transport Canada.

EVENLY DISTRIBUTED VOID AREA

- >> Enhances on and off-road traction.
- >> Increases tread block rigidity for better handling and stability.

AERODYNAMIC SIDEWALL

- >> Innovative AeroWing™ smooth sidewall lug design with high-contrast lettering improves efficiency by reducing wind drag.

EV OPTIMIZED TREAD DESIGN & COMPOUND

- >> Reduces rolling resistance and prolongs the tread life.
- >> Improves off-road durability and traction.
- >> Provides confident wet braking and handling.
- >> Protects from cuts-and-chips.
- >> Delivers a quiet and comfortable ride

Technical Data

"Millennium" warranty:
 - 80,000 km warranty on LT and Flotation sizes.
 - 5 year workmanship and materials warranty.

ALL THE FEATURES OF THE OPEN COUNTRY A/T III PLUS MORE!

The Open Country A/T III EV provides a significant multipurpose upgrade to enhance your EV's off-road and all-weather capability, while enhancing the rugged appearance and efficiency.

Transport Canada Approved for Severe Winter Conditions

Transport Canada in conjunction with the Rubber Association of Canada and the Tire Manufacturer's Association in the USA have introduced a performance standard requirement for snow tires. This standard was developed to help consumers distinguish between an "all season" tire (represented by the symbol "M+S") and tires specifically designed for use in severe winter conditions. Tires now meeting this standard will display a mountain/snowflake pictograph on the sidewall in addition to the M+S symbol.

Tire data subject to change. Visit toyototires.ca for current data.
